AMBIA™ LED LIGHT AND HEATING (220V)

THE AMBIA™ LED LIGHT FOR THE OCEAN MASTER MEGA MAX HAS TWO LIGHTING ELEMENTS, ONE THAT ILLUMINATES AMBIENT LIGHT UPWARD INTO THE CANOPY AND A SECOND THAT DIRECTS LIGHT DOWNWARD. BOTH LIGHTS CAN BE OPERATED SEPARATELY AND OFFER VARIABLE SETTINGS. PLEASE NOTE THAT LIGHTER CANOPY FABRIC COLORS REFLECT THE LIGHT MORE EFFICIENTLY THAN DARKER COLORS.

MEGA MAX CENTER POST

LIST PRICE		
AVAILABLE ON OCEAN MASTER MEGA MAX CENTER POST		
\$1950	\$9175	\$12125
<p>AMBIA LED LIGHT</p>  <p>Independent up and down dimming</p>	<p>AMBIA LED LIGHT AND 4 HEATERS</p>  <p>Independent up and down dimming</p> <p>Heater</p>	<p>AMBIA LED LIGHT AND 6 HEATERS</p>  <p>Independent up and down dimming</p> <p>Heater</p>

Select lighting and heating options when placing your order. These options cannot be retrofitted to existing parasols. Lights and heaters will be pre-installed at the factory and shipped with the parasol. External AC (110V or 240V) comes out of the bottom of the mast with a set 10' cord and plug. The customer is responsible for the onsite connection, and can either remove the plug and hardwire or adapt the plug to accommodate the various configurations by country. Lighting meets the applicable UL Codes in the US and CE codes in Europe. Approvals are pending.

The Ambia™ LED Light is bright enough for commercial settings. Low voltage -- direct current 12 volts.

Features of the heating device: Safe, maintenance free, odorless infrared heating element rated for outdoor/indoor areas. Adjustable bracket for easy orientation and auto switch to turn device off when umbrella is closed. Scratch resistant, sleek aluminum fixture, with hard-wearing finish available in black or white. UL Certified and operates for as little as 0.20 per hour.

Heating requires 220V and may require an electrician to modify standard outlet to accommodate.

AMBIA™ LED LIGHT AND HEATING (220V)

THE AMBIA™ LED LIGHT IS AN AMBIENT LIGHT THAT ILLUMINATES UPWARD INTO THE CANOPY.

PLEASE NOTE THAT LIGHTER CANOPY FABRIC COLORS REFLECT THE LIGHT MORE EFFICIENTLY THAN DARKER COLORS.

NOT COMPATIBLE WITH THE AGSP OR AGSP2 ALUMA-CRETE CUBE ABOVE GROUND ANCHORS

MAX CENTER POST

LIST PRICE		
AVAILABLE ON OCEAN MASTER MAX CLASSIC, MANTA AND CRESCENT PARASOLS. NOT AVAILABLE ON F-1, ZERO HORIZON, NAUTICAL TEAK AND NORTHSTAR MAST PARASOLS.		
\$1015	\$5245	\$8460
<p>AMBIA LED LIGHT</p>  <p>On/off only EasyDrive crank lift system</p>	<p>AMBIA LED LIGHT AND 2 HEATERS EasyDrive crank lift</p> <p>Power on/off</p>  <p>Ambia LED light On/off only, no dimming</p> <p>Heater</p>	<p>AMBIA LED LIGHT AND 4 HEATERS EasyDrive crank lift</p> <p>Power on/off</p>  <p>Ambia LED light On/off only, no dimming</p> <p>Heater</p>

Select lighting and heating options when placing your order. These options cannot be retrofitted to existing parasols. Lights and heaters will be pre-installed at the factory and shipped with the parasol. External AC (110V or 240V) comes out of the bottom of the mast with a set 10' cord and plug. The customer is responsible for the onsite connection, and can either remove the plug and hardwire or adapt the plug to accommodate the various configurations by country. Lighting meets the applicable UL Codes in the US and CE codes in Europe. Approvals are pending.

The Ambia™ LED Light is bright enough for commercial settings. Low voltage – direct current 12 volts.

Features of the heating device: Safe, maintenance free, odorless infrared heating element rated for outdoor/indoor areas. Adjustable bracket for easy orientation and auto switch to turn device off when umbrella is closed. Scratch resistant, sleek aluminum fixture, with hard-wearing finish available in black or white. UL Certified and operates for as little as 0.20 per hour.

Heating requires 220V and may require an electrician to modify standard outlet to accommodate.

AMBIA™ LED LIGHT, HEATING (220V) AND AUTOMATION

THE AMBIA™ LED LIGHT IS AN AMBIENT LIGHT THAT ILLUMINATES UPWARD INTO THE CANOPY.

PLEASE NOTE THAT LIGHTER CANOPY FABRIC COLORS REFLECT THE LIGHT MORE EFFICIENTLY THAN DARKER COLORS.

NOT COMPATIBLE WITH THE AGSP OR AGSP2 ALUMA-CRETE CUBE ABOVE GROUND ANCHORS.

LIGHTS

HEATING

AUTOMATION

Select lighting and heating options when placing your order. These options cannot be retrofitted to existing parasols. Lights and heaters will be pre-installed at the factory and shipped with the parasol. External AC (110V or 240V) comes out of the bottom of the mast with a set 10' cord and plug. The customer is responsible for the onsite connection, and can either remove the plug and hardware or adapt the plug to accommodate the various configurations by country. Lighting meets the applicable UL Codes in the US and CE codes in Europe. Approvals are pending.

The Ambia™ LED Light is bright enough for commercial settings. Low voltage -- direct current 12 volts.

Features of the heating device: Safe, maintenance free, odorless infrared heating element rated for outdoor/indoor areas. Adjustable bracket for easy orientation and auto switch to turn device off when parasol is closed. Scratch resistant, sleek aluminum fixture, with hard-wearing finish available in black or white. UL Certified and operates for as little as 0.20 per hour.

Heating requires 220V and may require an electrician to modify standard outlet to accommodate.

CANOPY PRINTING ARTWORK REQUIREMENTS

All information below is required when requesting a quote and/or proof.

- Original logo, also known as a vector file – this is an “.ai” or “.eps” file
- Parasol size
- Canopy shape, for example:

- Profile of the parasol – market, valance or fishtail
- Fabric color and grade
- PMS colors for logo (no metallics)
- Placement of artwork on panel(s) and/or valance(s). For example:

- 2-day turnaround for new proof
- 250 charge for JPEG'S or PDF that need to be converted to vector artwork (an additional 3-day turnaround for new vector artwork)
- Proofs will be sent via email for approval
- Production will not begin until signed approval is returned to Tuuci
- Proofs will remain on file for future repeat orders
- Not all PMS colors are available in outdoor ink. We will select the closest match when creating the proof, in the event the specified pms is not available.

HOW TO IDENTIFY YOUR PARASOL AFTER PURCHASE

TUUCI® PARASOLS HAVE A UNIQUE PRODUCT ID # TO IDENTIFY THE MODEL & STYLE

Center Post

ID/job number is located below the top hub on center post mast.

Cantilever

ID/job number is located on the back top of cantilever mast.

IF YOUR PRODUCT ID/JOB NUMBER IS MISSING,
YOU WILL NEED TO IDENTIFY YOUR PRODUCT BY MEASURING A RIB

Sample rib set & frame

Measure a to b and c to d

ORDERING INFORMATION

Features and Available Options

- Please refer to individual product pages in this booklet for STANDARD FEATURES and ENHANCEMENT OPTIONS.
- All options, accessories and anchors are sold separately.
- Consult your Tuuci® representative for the proper mounting system for specific shade equipment.
- Heavy wind applications may require additional weight.

Tuuci Protective Covers

- Information on Tuuci protective covers can be found for each specific item on the last column of the product on the price list, e.g. OM MAX 13' OCT, specify CX2.

The shape illustrations featured throughout this booklet do not necessarily indicate quantity of ribs or exact product. They are intended only to give a general idea of the shape of the canopy.

Tuuci reserves the right to make design modifications to the entire range of manufactured and distributed products without prior notice, including product specifications.

Pricing Formula

Pricing for all options and up charges are LIST PRICES.

FORMULA: LIST PRICE + OPTIONS x DISCOUNT = NET COST

Pricing

- All prices are list price per single unit (unless otherwise noted) and do not include shipping costs, taxes or installation.
- Prices are subject to change without notice. Formal quotes will be valid for 30 days.

Sales Taxes

- Tuuci is required to charge sales tax for drop shipments into any of the states where we have nexus unless our customer is registered to collect sales tax in that state and provides required resale exemption documentation.

Payment

- Tuuci does not grant credit or payment terms to international customers, specifiers or end-users.

Accepted Payment Methods

We accept payment by check or bank wire/ACH on both orders and invoices.

Credit card payments accepted only on prepaid orders. We currently accept MasterCard, Visa, and American Express.

- Orders under \$5,000 must be paid in full.
- Please note a 3% processing fee is added to the total of any order above \$1,000 if paid by credit card.
- We accept 50% deposit - balance prior to shipping only on orders above \$5,000.

CARE & MAINTENANCE TERMS & CONDITIONS

Tuuci® frames are constructed from durable, marine grade, weather-resistant materials including fiberglass, armor-wall aluminum, Vineyard Dura-TEAK composites, Plantation Aluma-TEAK aluminum and sustainable hardwood. All fasteners (nuts, bolts, pulleys, cam cleats, etc.) are marine grade stainless steel and will withstand most corrosive environments. Proper care and maintenance are important to extend the serviceable life of all Tuuci products.

Routine Care for your Tuuci Parasol

- Before you open the shade product, ensure that it is properly secured to an adequate anchor, using its intended locking system (star knob, hitch pin or cam lock).
- Rinse once a week with fresh water.
- Inspect your product weekly.
- Tighten loose screws and replace broken components immediately to avoid further damage.

When opening a Tuuci parasol, separate each rib 6 inches from the center post, before raising the hub. Do not force the hub if it does not rise easily.

When closing the parasol, pull the fabric out from between the struts to avoid pinching or damaging the High Performance Textile canopy.

Tuuci in High Wind

Although many Tuuci frames have been tested for structural integrity in winds exceeding 50 mph, you must use caution and common sense in extreme wind and weather conditions. Close all collapsible shade equipment in conditions which exceed 25 mph. Stability of Tuuci shade products in heavy wind and severe weather conditions is directly related to the size, weight, and security of the shade anchor. Use reasonable and cautious judgment when determining when the parasol should be closed.

Routine Care for Shade Anchors

ALWAYS BE SURE THAT THE PARASOL CENTER POLE IS FIRMLY ATTACHED TO ANCHOR BEFORE OPENING PARASOL.

Clean above ground parasol anchors gently and regularly with soap and water using a non-abrasive cloth or pad to maintain appearance. Check all bolts in anchor plate regularly to ensure that they remain fully tightened. Inspect weekly if parasol anchors are moved on a regular basis.

Do not roll Aluma-CRETE (aluminum shell, concrete filled) anchors on their side as damage to shell or finish will occur. Touch up anchors with exterior paint as needed. Order touch up paint by emailing parts@tuuci.com. Wheeled parasol anchors are intended for use on even surfaces. Move anchors slowly and with caution on uneven surfaces. Do not use on stairways or over distances which exceed 50 feet, as damage to welded wheel tray may occur.

High Performance Textile Canopies, Curtains, and Tensioned Fabric Walls

Tuuci's High Performance Textile canopies employ the most durable and state of the art marine fabrics and thread, including proven high-performance, UV stable materials.

Essential Canopy Cleaning

Clean Tuuci High Performance Textiles regularly before dirt accumulates and becomes embedded in the fabric. The fabric canopy can be cleaned without being removed from the frame.

1. Simply brush off any loose dirt or particles; hose down and clean with a mild soap in lukewarm water (no more than 100° F.)
2. Rinse thoroughly to remove soap.
3. Allow fabric to air dry.

Stubborn Canopy Stains

Clean with a mild soap and add one cup of bleach to a gallon of water, scrub vigorously with a soft bristle brush, sponge or clean towel. Allow fabric to air dry. This method of cleaning may remove part of the water repellency. If water repellency is a factor, the fabric should receive an application of an air-curing water repellent treatment (such as SM fabric guard).

DO NOT WASH OR CLEAN WITH EXCESSIVE HEAT OR THE FABRIC WILL SHRINK.

AIR DRY ONLY. DO NOT STEAM PRESS OR DRY USING OTHER METHODS.

If you store your parasol during the winter, clean the High Performance Textile canopy, air dry it, and store it in a dry, well-ventilated area. Always use a Tuuci protective cover when you are not using the parasol to extend its serviceable life.

Parasol Repair

Proper care and maintenance should prevent broken parasols, but in the case your parasol is in need of repair, all Tuuci products are built with 100% replaceable parts. Order Tuuci products by emailing parts@tuuci.com.

WARRANTY: PARASOL / CABANA / LOUNGE / SHADE ANCHOR

Tuuci® constructs its shade structures with the finest marine grade materials available. We test our products in extreme weather environments to ensure stability, durability and years of worry-free service. In addition, Tuuci personnel carefully follow specific quality control procedures and inspect each product to ensure freedom from manufacturing defects. Our goal is to produce shade platforms that will exceed your expectations and provide a shade experience like no other in the world.

The limited warranty protection detailed below covers manufacturing defects only.
